

Who is NonProfit Technologies?

NonProfit Technologies, Inc. (NPT) is a business and technology solutions provider with over 40 locations nationwide serving nearly 700 clients. We help federal, state, and local government agencies and nonprofit organizations, including schools, human and social service agencies, religious organizations, museums, and libraries achieve their missions.

NPT provides expert, certified implementation, customization, and integration of industry leading nonprofit accounting software - Sage Fund Accounting and Sage Fundraising 50. Our expertise has been acknowledged through our election to the Sage Chairman's Club, President's Circle, and Million Dollar Club for 2011, and as a Sage Select Authorized Partner for 2012.

NPT is also a Microsoft Gold Certified Partner as well as being the publisher of Gazelle, a complimentary product to Sage Fund Accounting.

How is NPT Different?

NPT is a privately-owned firm that grew out of our CPA firm, Massey, Porter and DePalma, originally established in 1996. Because of this background, our professionals are industry specialists, including CPAs, who have spent their entire careers working exclusively with government and nonprofit organizations and have performed hundreds of successful accounting software implementations across the country.

We're different because we understand your specialized financial accounting and reporting standards and other unique

needs and have dedicated our entire practice to addressing those needs.

Our professionals begin every engagement by identifying and analyzing the critical success factors and risks specific to each client and project. Once we develop a comprehensive understanding of your organization, we will create a detailed plan to meet your objectives. We also focus on producing results - not just meeting your basic requirements. We are not completely satisfied until you have significantly improved your staff efficiency, cost savings, reporting ability, and compliance as a result of your software investment.

NPT is an independent member of the BDO Seidman Alliance. This membership allows us to strengthen and enhance our exceptional expertise and service we provide our clients. For more than 100 years, BDO USA has been recognized as a premier accounting, tax, financial advisory and consulting organization. Providing services to a wide range of publicly traded and privately held companies, BDO offers a sophisticated array of services and global capabilities, combined with the personal attention of experienced and committed professionals. BDO serves clients through more than 40 offices and over 400 independent alliance firm locations nationwide.

What Does NPT Provide?

- Current software systems review and recommendation reports
- Software installation and upgrades
- Data conversion and imports
- Software application integration services
- Custom report writing and custom application development
- Pre-audit preparation assistance

We also offer you a number of training and support services designed to maximize

your knowledge of your software and empower you throughout the implementation of our solutions. These services include: individualized training, classroom and web-based user training, technology bulletins, newsletters, and user group meetings.

At NPT, we strive to provide business solutions that exceed your expectations on-time, on budget, and with the functionality we've promised.

How Do Clients Benefit?

Our record speaks for itself; NPT has a solid commitment to our clients and a strong belief in the value of their missions. As an NPT client, you will benefit from:

- Increased efficiency and effectiveness of your financial accounting, administrative, and operational functions.
- Our vast experience in the government and nonprofit industries which helps us to identify and address your particular needs.
- A true partnership philosophy to ensure you obtain the most from your software investment.
- Our customer support and training programs to ensure your implementation is successful long term.

If you are interested in learning more about NPT's technology solutions please contact Tammy Massey of NonProfit Technologies at 800.404.9758, ext. 123 or tammy@cpaz.com.
